

Quad Cities Chapter American Society of Safety Engineers

Next Meeting:

TOPIC: TBA

When: February 11th @ noon

Where: Tri-City Electric

6225 N Brady St

Davenport, IA 52806

P: 563.322.7181

New Members!!

The Quad City Chapter would like to welcome our new members: Schuyler Warlow and John Hannon.

Welcome!!

If you know of someone who is interested in joining our chapter, refer them to the refer-a-member link on <http://www.asse.org/>

Update Contact Information

Contact Diana Gilbert @ dlg1127@aol.com to up-date your e-mail address to receive the newsletter by e-mail, and emails from ASSE if you are not currently doing so.

We are always looking for input into the newsletter to better serve our members. Please send newsletter contributions to Diana Gilbert.

Proposed Recordkeeping Changes

Making and Maintaining Accurate Records, Recordkeeping Forms, and Recording Criteria

OSHA is proposing to amend the title of this Subpart to better reflect the content of revised §§ 1904.4 and 1904.29, which address employers' duties to make and maintain accurate records, as well as recordkeeping forms and criteria.

3. Paragraph (a) of § 1904.4—Basic Requirement

OSHA is proposing to revise this paragraph to reiterate the requirement that employers make and maintain accurate records of every injury and illness that meets the recording criteria in paragraphs (a)(1) through (3) of § 1904.4. The proposed language is intended to express that an employer's duty includes both creating and preserving accurate records of recordable injuries and illnesses. To be accurate, these records must be correct and complete.

4. Note to Paragraph (a) of § 1904.4

OSHA is proposing to add this note to § 1904.4(a) to clarify the Agency's longstanding position that the duty to make and maintain accurate injury and illness records continues throughout the entire record-retention period set out in § 1904.33(a). This retention period runs for five years from the end of the calendar year that the records cover. An employer who fails to create a required record during the seven-day period provided for in § 1904.29(b)(3) must still create the record so long as the retention period has not elapsed. Given this ongoing duty, OSHA may issue recordkeeping citations to employers that have incomplete or otherwise inaccurate records at any point during the retention period, and, under the six-month statute of limitations set out in 29 U.S.C. 658(c), for up to six months thereafter.

7. Paragraph (a) of § 1904.32—Basic Requirement

OSHA is proposing revisions to make clear that employers must examine each year's OSHA 300 Log and incident reports at the end of the year to ensure that each and every recordable injury and illness is recorded on the Log, and that each entry is accurate. If an employer discovers, during this review, that an injury or illness is missing or that any aspect of an entry is inaccurate, the employer must correct the deficiency. If an injury or illness was initially left off of the OSHA 300 Log, the employer must both add it to the log and create an accurate Incident Report for that injury or illness. This language is for clarification purposes only and does not add any new compliance requirements.

For more recordkeeping information and frequently asked questions please visit <https://www.osha.gov/recordkeeping/>. This website has tons of great information.

Remember to have logs posted by 2.1.16

OSHA Challenge

OSHA recently unveiled a new webpage developed to provide employers and workers with strategies and tools for preventing workplace violence in which work setting?

- A) Construction
- B) Agriculture
- C) Government offices
- D) Health care

OSHA seeks comments on updated Safety and Health Program Management Guidelines

What's New in the Guidelines?

- *A proactive approach to finding and fixing hazards before they cause injury, illness or death*
- *Improved safety and health in all types of workplaces*
- *Help for small and medium-sized businesses to effectively protect their workers*
- *Increase worker involvement, so all workers have a voice in workplace safety and health*
- *Better communication and coordination on multi-employer worksites*

The guidelines are not a new standard or regulation and do not create any new legal obligations or alter existing obligations created by OSHA standards or regulations.

Announcements

FEBRUARY 5-11, 2016 The RIO · LAS VEGAS
The can't miss event of the year for safety professionals.

[View details »](#)

Join the conference: June 26-29, 2016 in Atlanta, GA

Expand your capabilities, connect with your peers and get inspired! This event promises the most experienced speakers and strategic sessions covering the latest topics and trends. <http://www.asse.org/>

FEATURED PODCASTS

[A new view on safety incentives](#)

Includes a live event on 01/21/2016 at 10:00 am (est) an ASSE virtual symposium.

[The psychology of error](#)

Includes a live event on 02/03/2016 at 12:00 pm (est). The just culture model shows how we often make unintentional mistakes of action through poor ergonomics, physiology or lack of training and may consciously undertake violations because of practical issues (e.g. With the best will in the world we can do a or b but not both). Alternatively we may violate because of cultural cues as to 'the ways we do things are around here' or because we perceive that is what the leadership really want.

[Forklift liability in the workplace](#)

Includes a live event on 02/10/2016 at 12:00 pm (est) February 10, 2016 - take a look around you. There's a good chance you work at a facility that uses a powered industrial truck (pit).

[Using safety metrics to identify real threats](#) Includes a live event on 02/18/2016 at 10:00 am (est) February 18-19, 2016
